Upton, New York, 11973-5000

Re: EPA's Consolidated Multi-Media Inspection  
Brookhaven National Laboratory, July 27, 2016

Dear Mr. Crescenzo:

Thank you for the time and assistance provided to the U.S. Environmental Protection Agency (EPA) Region 2 during our consolidated multi-media inspection conducted at the Brookhaven National Laboratory facility on July 27, 2016 and for your prompt response to our inspection follow up letter.

All concerns identified during the inspection were subsequently resolved and the review of information provided by facility uncovered no concerns. However, EPA reserves all rights it may have to take appropriate enforcement action should new information become available regarding any federal regulatory matters.

If you have any questions, please contact our Federal Facility Program Manager, Linda Longo, at 212-637-3565 or [longo.linda@epa.gov](mailto:longo.linda@epa.gov). We can provide you with additional information you may need regarding the inspection or how to improve your overall environmental footprint. In addition, please remember that **FedCenter.gov** is an important on-line resource for environmental stewardship and compliance assistance information for Federal facility managers and their agencies and the enclosed Flood Resource CD-ROM contains a multitude of regulatory guidance beneficial for facilities located in flood prone areas.

Sincerely,

A handwritten signature in dark ink, appearing to read "Kme-Bog".

Kathleen Malone-Bogusky, Chief  
Compliance Assistance Section  
Division of Enforcement and Compliance Assistance
